

Still in Love

A song by DotSmith

verse 1:

In the quite of the night
Shadows on the wall.
Endless memories,
Like constellations fall.
As the years come and go,
We've weathered every storm.
And here we stand,
Battle-scarred, hearts still warm.

Chorus:

After all these crazy years,
Still hopelessly in love.
Like a vintage vinyl playing,
All the stars above.
Our melody unwritten,
Yet familiar as the rain.
In this song of forever,
We will remain.

Verse 2:

We've walked through lifetimes,
hand in hand.
Touching the flowers
And breathing the air of the green lakeland.
Through laughter lines
And silver strands of hair.
We've painted loves picture
Beyond compare

Chorus:

After all these crazy years,
Still hopelessly in love.
Like a vintage vinyl playing,
All the stars above.
Our melody unwritten,
Yet familiar as the rain.
In this song of forever,
We will remain.

Solo

Chorus:

After all these crazy years,
Still hopelessly in love.
Like a vintage vinyl playing,
All the stars above.
Our melody unwritten,
Yet familiar as the rain.
In this song of forever,
We will remain.

Outro

So let the world spin madly on my dear,
And we'll slow dance through eternity, no fear.
Endless time with you is never enough,
After all these years,
I'm still in love
